GANDHARV SANKPALE

Software Developer Intern | Full-Stack Developer | MCA Student

gandharv9384@gmail.com | India | GitHub: github.com/Gandharv84 | LinkedIn: linkedin.com/in/gandharv-sankpale

PROFESSIONAL SUMMARY

MCA student and Full-Stack Developer seeking a technical internship in software development. Hands-on experience building and maintaining full-stack projects with Python, Flask, React, TypeScript, JavaScript, MongoDB, and MySQL. Skilled in REST API integration, authentication, role-based access control, and admin dashboards. Strong troubleshooting and problem-solving skills, comfortable with GitHub workflows, and committed to delivering tasks on deadline.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, JavaScript, TypeScript

Frontend: React, HTML5, CSS3, Tailwind CSS

Backend: Python, Flask, REST APIs

Databases: MongoDB, MySQL

Tools and Technologies: Git, GitHub, Gemini API, YouTube API

Core Skills: Problem Solving, Troubleshooting, Software Development, Technical Documentation, Team Collaboration, Time Management

PROJECTS

TechTalk Vault: Full-Stack Technical Learning Platform

Tech stack: Python, Flask, MongoDB, HTML5, CSS3, JavaScript, Gemini API

- Developed a full-stack web platform to organize and deliver technology interview content.
- Implemented user authentication, user profiles, and an admin dashboard for managing platform content.
- Integrated the Gemini API to provide AI-based video summarization and transcript-based question answering.

- Processed YouTube transcripts and APIs to power content summarization and interactive Q&A.

RemindMe: Vehicle Service, Insurance and Document Reminder System

Tech stack: React, TypeScript, Tailwind CSS

- Developed an automated reminder platform for car dealerships and vehicle owners covering vehicle service, insurance renewal, and PUC expiry.
- Engineered an in-memory relational database and reminder engine to track service intervals, IDV valuations, and insurance/PUC expiry timelines.
- Integrated simulated SMS and email notification gateways with DLT headers and SMTP relay audit logs for multi-channel communication.
- Built a role-based access control system with an employee/admin operations dashboard and a customer portal for booking service appointments.

EDUCATION

Master of Computer Applications (MCA), KIT's Institute of Management Education & Research (KIT IMER), Kolhapur | 2025 – 2027

Bachelor of Science in Computer Science, Shivraj College, Gadhinglaj | Percentage: 67.71%

STRENGTHS

- **Technical Problem Solving:** Identifies application issues, analyzes causes, and implements practical solutions.
- **Programming Foundation:** Hands-on experience in Python, Java, C++, and JavaScript with full-stack development.
- **Learning Agility:** Keen interest in emerging technologies and continuous technical learning.
- **Collaboration:** Works well on team tasks, incorporates feedback, and coordinates technical work.
- **Execution:** Prioritizes tasks and manages time to meet strict deadlines.

ADDITIONAL INFORMATION

Career Focus: Software Development, Full-Stack Development, Emerging Technologies

Availability: Open to technical internship opportunities
